MODULE 1
LABORATORY LEADERSHIP OVERVIEW

Ed RANDELL

IFCC EMD - Committee on Clinical Laboratory Management (C-CLM)
"Leadership is an action, not a position."

Donald McGannon (Broadcasting executive in early television)
Introduction

Good Leadership practices transcend disciplines

- Challenges others to growth and improvement
- Establishes workplace culture
- Promotes quality and progress

Clinical Laboratory Leadership challenges are Unique

- Focus on wellbeing, expectations and safety of patients, but rarely meeting the patient.
- Balancing productivity and cost-control with medical ethical requirements
Leadership Styles

Presentations by: Aye Aye Khine “Defining the Laboratory Medicine Leaders” and “Effective Leadership Styles”
“Good leadership is characterized by competency in practice, involvement in quality management, being an effective problem solver and strategist, pursuit of improvement and excellence in service, and promotion of development and sustainability of this service based on its relevance to quality patient care.”

Presentation by:
Matthias Orth “Management and Leadership Skills in the Clinical Laboratory”
Attributes of Leadership

"A leader is one who knows the way, goes the way, and shows the way."

John Maxwell (Author, Speaker, & Leader)

Presentations by:
Sedef Yenice “Leader as Visionary and Motivator”
&
Edward Randell “Work Culture and Leadership Ethics”
LESSTONS TO LEARN

The following presentations will focus on developing and improving leadership skills by:

• Describing the laboratory medicine leader
• Identifying effective leadership styles
• Describing the qualities and skills of good leaders in the clinical laboratory
• Describing the role of a laboratory leader as visionary and motivator
• Identifying key strategies towards leading staff through change
• Describing ethical leaders as change leaders towards quality oriented and patient focused workplace culture.
FURTHER READING

In addition to PowerPoint presentations in this training module, read our accompanying guidebook "A Training Manual on Leadership Basics for Clinical Laboratory Professionals" that provides a comprehensive content including case studies and self-assessment tools.

This guidebook will be available on IFCC C-CLM website from March 31, 2017. (http://www.ifcc.org/ifcc-education-division/emd-committees/c-clm/6-c-clm-publications-and-survey-reports/)
