New eAcademy webinar: FREE!

Traceability in laboratory medicine: a driver for accurate results for patient care

Do you want to understand what traceability in laboratory medicine is, or why different methods for the same analyte give different results?

Listen and watch the new IFCC eAcademy Webinar on Traceability by Dr Graham Beastall

After completing this session, you will be able to know why reducing between-method variability is important and know the stakeholders involved in achieving traceability in laboratory medicine together with their respective roles
