

Call for manuscript submissions for a thematic eJIFCC issue on “Flow cytometry”

Guest Editor for the “Flow cytometry” issue: Katherina Psarra

Multiparameter Flow Cytometry (FCM) is a recent technology of very high performance developed for a vast variety of diagnostic applications.

Is there really a limit of future cytometry? Will the evolution and transformations arrive at a limit or will they go on and on? Will the effort be the one that really matters? We hope to offer you some insight into this bright future with an eJIFCC issue dedicated to cytometry.

We invite you to submit a paper on “**Flow cytometry**” to be published in this thematic issue.

That way the message will be carried on to fellow laboratorians about the importance, the magic and the charm of this evolving technology.

Submitted papers will be reviewed according to the regular procedure of the eJIFCC.

Important deadlines

- Deadline for submission of the tentative title (to the Guest Editor): **April 1st, 2019**
- Deadline for submission of the manuscript: **May 31st, 2019**

Type of articles

- Original Papers
- Critical Reviews
- Case studies

Manuscripts to be submitted by e-mail to:

- the Editor-in-Chief: ejifcc@ifcc.org
- with a copy to the Guest Editor: kpsarra@outlook.com
