

“ACBI - IFCC TF YS CME/Session 2015”

About the IFCC-TFYs

International Federation of Clinical Chemistry & Laboratory Medicine (IFCC) has assembled Task Force Young Scientists (TF-YS) in 2010. IFCC-TF YS is devoted to prepare young scientists with ongoing changes in laboratory medicine and healthcare practices. The specific objectives were identified as Networking, Training, Participation & Multidisciplinary exchanges of different fields & different ideas. Thus, IFCC-TF YS has organised Workshops in different Congresses of IFCC & Member Societies to learn perspectives & principles of Laboratory Management & Leadership. In India with collaborative efforts of ACBI & IFCC, the IFCC-TFYs is organizing educational sessions/ workshops/symposium every year in National Conference ACBICON since 2010.

Session Overview

Research refers to a search for knowledge. One can also define research as a scientific and systematic search for pertinent information on a specific topic. The workshop will be led by an experienced academic trainer, and aims to provide structure, advice and motivation through writing a paper for publication. The purpose of this guide is 1). to give students a sequential approach to writing the research paper from selecting a topic, doing the research, organizing the materials, and producing the finished document, 2). and to readily prepare students to meet the demands and rigors of college writing and research.

Topics to be Covered

1. Understanding the Writing Process: Planning and Productivity
2. Breaking down the structure of papers to generate writing goals: Manuscript Development
3. Techniques for being an effective writer
4. Ethics involved in Publication Process: Important to know
5. Publishing your work: Importance of Journal Selection & Submission

Target Audience

Young Scientists, Laboratorians, Clinical Chemists & Pathologists
