

«ZACB - IFCC TFYS Session, 2016»
FRIDAY 17TH JUNE 2016
Theme: “Scientific Research Writing”

Session Overview

Scientific research is the application of scientific method to the investigation of relationships among natural phenomenon, or solving a medical or technical problem. The results of scientific research need to be documented and disseminated. The workshop will help young scientist on developing, documenting and dissemination of scientific research results. A panel of experienced academics and researchers will lead the workshop.

The purpose of this guide is

1. to give students a sequential approach to writing the research paper from selecting a topic, doing the research, organizing the materials, and producing the finished document, and
2. to readily prepare students to meet the demands and rigors of college writing and research.

Target Audience

Young Scientists, Laboratorians, Clinical Biochemists & Clinicians

Session Outcomes

The intended outcome is participants will be able to develop an idea and produce a manuscript for publication.

Registration

NO FEE all young scientists are welcomed to this event
