

XII General Conference of IFCC Report

The XII General Conference of IFCC entitled "The future of IFCC Now" was held at Hotel Auditorium- Marriott, Madrid, Spain, from 19-21 March 2016. The conference was well organized in the presence of 71 national representatives from 71 countries.

The Executive Board Meeting discussed the strategic plan (2016-2017), treasurer report, corporate member report. Representative of National Federations discussed their activities and all were followed by fruitful discussion.

The conference included 5 presentations of IFCC divisions, 20 lectures during 7 sessions in addition to discussion of the forthcoming IFCC congresses according the business ethics codes. In session 6 twelve interactive workshops suggested by IFCC Functional Units by National Societies and Regions were achieved. The scientific program was very interesting and useful. There was a lot of fruitful discussions and exchanges of ideas.

Thanks to Dr Ferrari, President of IFCC and to Dr. Bernard Gouget, Chair of Conference. I acknowledge the Organizing Secretariat for respectable efforts. The social program was excellent and appreciated.

Prof. Dr. Mohamed Shaarawy. PhD, FRCPath (UK)

Professor of Clinical Biochemistry, Faculty of Medicine, Cairo University,

President of Egyptian Society of Clinical Chemistry & Lab Medicine
