

IFCC presents the IFCC Global Conference on COVID-19

Milan (IT), 14 December 2020 - The International Federation of Clinical Chemistry and Laboratory Medicine (IFCC) is happy to announce the IFCC Global Conference on COVID-19 that will take place virtually on February 15-17, 2021. The theme of this conference will be the "[Critical Role of Clinical Laboratories in the COVID-19 Pandemic](#)", with the goal of bringing together leading experts on a global platform to present the latest advances in COVID-19 diagnostics and therapeutics.

Specifically, attendees will have access to the following:

- Plenary sessions delivered by leading scientists, physicians, and public health authorities.
- Ten scientific symposia, covering physiology, diagnostics, therapeutics, and technology
- Special presentations on the global response to COVID-19 in Africa, Asia-Pacific, Europe, Latin America, Arab Federation, and North America
- An industry panel with presentations from industry leaders on latest IVD innovations
- Twelve educational industry workshops
- A young investigator forum with presentations from young scientists worldwide
- Scientific e-posters and virtual industry exhibits

For more details, please see the [preliminary programme](#) on the IFCC website. Within the programme, you will also find details on registration and abstract submission. Registration is free for all young scientists and trainees who are under 40 years old.

Register and take advantage of this low-cost conference, which will provide all attendees with invaluable learning opportunities.

Dates to Focus on:

- [EARLY Registration Fee](#): Take advantage of the best registration fee within 20 January 2021!
- [ABSTRACT Submission](#): Don't miss the deadline! You have time until 5 January 2021 to submit your papers

Registration is free for all young scientists and trainees who are under 40 years old.

Register and take advantage of this low-cost conference, which will provide all attendees with invaluable learning opportunities.

ABOUT IFCC

IFCC advances excellence in laboratory medicine for better healthcare worldwide.

It is the leading organization in the field of Clinical Chemistry and Laboratory Medicine worldwide. Through leadership and innovation in science and education, IFCC strives to enhance the scientific level and the quality of diagnosis and therapy for patients throughout the world. IFCC builds on the professionalism of its members to provide quality services to patients. IFCC is a Federation of 93 Full Member and 17 Affiliate member Societies of Clinical Chemistry and Laboratory Medicine representing more than 45.000 individual clinical chemists, laboratory scientists, and laboratory physicians and 50 Corporate Members covering the major areas of clinical laboratory developments. For further details please contact: ifcc@ifcc.org.
